## 50 GE 50

Standard glass windows/ float

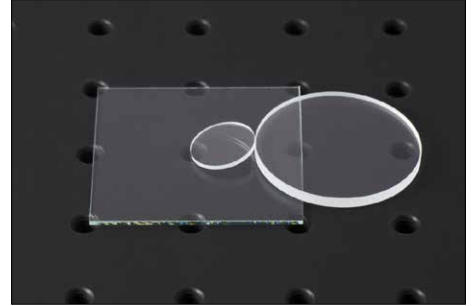

Photo representative of the Standard glass windows/ float range, and may not show the part 50 GE 50.

### 50 GE 50 specification

|                         |                                     |
|-------------------------|-------------------------------------|
| Diameter (mm)           |                                     |
| Diameter tolerance (mm) |                                     |
| Dimensions (mm)         | 50 x 50                             |
| Dimensional tolerance   | ±0.25                               |
| Thickness (mm)          | 1                                   |
| Thickness tolerance     | nominal                             |
| Flatness                | 0.5 lambda over dia. 10mm (typical) |
| Parallelism             |                                     |
| Scratch-dig             |                                     |
| Material                | 'White' float glass (low-iron)      |
| Coated sides            | One side                            |
| Coating type            | AR 450-900nm                        |
